[No. 5020.

Description of Worms, and the symptoms by which they are known.
Worms which infest the human body are chiefly of four kinds viz.—The round or large round worm; the Ascarides or small man-worm; the Cucurbitina or short flat white worm; and lastly, the Taenia or tape-worm, so called from its resemblance to tape. It is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums itching in the nose, and about the seat of convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and foetid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children—a dreadful disorder which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number who in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Genuine Persian Lotion.
So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Damask Lip Salve—Restorative Powder for the teeth and gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness which, suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative.
Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent intoxication or any other destructive intemperance, the unskillful or excessive use of mercury, the diseases peculiar to females at certain period of life, bad lyings in &c.

Hamilton's Elixir for Coughs, Colds &c.

Hahn's genuine Eye Water.

French papers of the 26th arrived last night. They continue to speak favorably of the harvest, which every year produces to be most abundant. The prospect had occasioned a considerable fall in the prices of grain at the corn market in Paris. The shops of seven bakers who were detected in using short weights, have been shut up by the police. We trust that similar vigilance will be exercised in this metropolis, and that avarice & fraud will not be allowed to interpose between the people and the blessings of Providence. It appears that the Austrians are about to evacuate the kingdom of Naples, and that they have commenced by evacuating their train of artillery for Trieste.

Lord Castlereagh.—Doctor Bankhead went to Fontenay again yesterday, to visit Lord Castlereagh, whose hand has been severely lacerated, the sinews of the first and second fingers being separated, and the nail and top of the first finger being nearly torn off. His lordship was prevented from fighting another, when he received this wound. Dr. Bankhead, on Monday, ordered him to bed, and to be kept very quiet.

The dog, a short time since, pinched the gardener & another man up in a corner, when they were moving about at dark, and it was with difficulty he could be called off from them.

The dog was a present from Stuttgart to Lady Castlereagh.

Price of Bullion.—Yesterday foreign gold in bars, was at 41. New dollars at 95. 2d.; and silver in bars at 54. 5d.

An officer of the 55th regiment, at Helena, writes word,—

"Bonaparte allows no person to visit him but his own retinue, seldom walks, and never rides out on a promenade; his billiard room is the only exercise he enjoys: he is more sallow (his natural complexion) than when I first saw him, and more stooped, owing, I suppose, to want of his usual exercise. Count Las Cases and son were sent off the island for endeavoring privately to forward some communication to Europe. The attempt was extremely ingenious, done on satin, in hieroglyphics and other characters, and could not be deciphered without the aid of a microscope; this was made up in a waistcoat, and given to a boy, a native, lately a servant of his establishment, with directions to present it to a correspondent at home, for which he was to receive a handsome reward. The lad informed his father of the secret."

AUGUST 1.

Our readers will be highly amused by the article from Stockholm which was brought by the Hamburg mail, and which describes the measures adopted in Sweden, to suppress all commerce with foreign countries. The Swedes are to wear no foreign cloth, to drink no foreign liquors, to eat no foreign confectionary. An allusion is made to the former condition of Sweden, and it is asserted that the financial relations of no state could be happier than theirs; had not the inundation of goods, and the facility of gain during the blockade of the continent procured among all classes a desire for foreign articles of luxury, which was before unknown to them.

PARIS, July 26.

The last third of the loan has been negotiated at 64 francs; the preceding portions only reached 55. The lenders are the same company who treated before, with the addition of the firm of De Lessert. The conclusion of this loan has already produced a salutary effect on the funds, which in four days have mounted from 65 to 68. It is certain that considerable foreign sums have been transferred from Germany, Switzerland and Geneva, to be employed in the public funds of France.

Extraordinary instance of Religious Penance.

Captain Turner, in his account of the embassy from the governor-general of British India, to the court of Teshoo Lama, in Tibet, (a country extending from the source of Indus to the borders of China, and from Hindostan to the deserts of Cobio, & considered the highest land in Asia) relates the following particulars of the life of a devotee, named Pranporee.

Having been adopted by an Hindoo devotee, and educated by him in the rigid tenets of his religion, he was yet young, when he commenced the course of his extraordinary mortifications. The first vow, which the plan of life he had chosen to himself induced him to make, was to continue perpetually upon his legs, and neither to sit down upon the ground, nor lie down to rest, for the space of twelve years. All this time he told me, he had been employed in wandering through different countries. When I enquired how he took the indispensable refreshment of sleep, when wearied with fatigue, he said, that at first to prevent his falling, he used to be tied with ropes, to some tree or post; but that this precaution after some time, became unnecessary, and he was able to sleep standing.

The complete term of this first penance being expired, the next he undertook was to hold his hands, locked in each other, over his head, the fingers of one hand, dividing those of the other, for the same space of

twelve years: whether this particular was chosen in compliment to the twelve signs of the zodiac, or to the twelve cycle of twelve years, I cannot decide. He was still determined to dwell in any fixed abode; so before the term of his last vow was accomplished, he had travelled over the greater part of the continent of Asia. He first set out, by crossing the Peninsula of India, thence he then passed by Suratta, and thence to Constantinople, from Turkey he went to Ispahan, and sojourned so long among the different Persian tribes as to obtain a considerable knowledge of the language, in which he conversed with tolerable ease. In his passage thence towards Russia, he was with Kussaucs (hordes of Cosaks) upon the borders of the Caspian, where he narrowly escaped being condemned to perpetual slavery. Though he was suffered to pass on, he reached Moscow; he then travelled along the northern boundary of the Russian empire, and through Siberia, arrived at Pekin in China, from whence he came through Tibet, by the way of Teshoo Lama, and thence down to Calcutta.

When I first saw him at this place, in the year 1783, he rode upon a piebald Langu horse from Bootan, and wore a satin embroidered dress, given to him by Teshoo Lama, of which he was not a little vain. He was robust and hale, and his complexion was a long bushy black beard, appeared really florid. I do not suppose he was then forty years of age. Two Goshens attended him, assisted him in mounting & alighting from his horse. Indeed he was indebted to them for the assistance of his hands on every occasion; his being fixed and immovable, in the position in which he had placed himself, were of course perfectly useless.

The circulation of the blood seemed to have forsaken his arms; they were withered, void of sensation & inflexible. Yet he spoke to me with confidence of recovering the use of them, and mentioned his intention to take them down the following year when the term of his penance would expire.

Other Goshens assured me, though I could not help doubting the fact, that it is practicable to restore withered limbs, thus circumstanced, to perfect use. This is effected they say, though without great labour, and some say, by means of long continued friction, before a large fire, with a certain ointment which they compound. To complete the full measure of his religious penance, I understood that there still remained two other experiments for Pranporee to perform. In the first of these, the devotee is suspended by the feet to the branch of a tree, over a fire, which is kept in a continual blaze, and swung backwards and forwards, his hair passing through the flame, for one hour and a quarter, that is three hours and three quarters. Having passed through this fiery trial, he may then prepare himself for the last action of penance, which is to be buried alive, standing upright in a pit dug for the purpose; the fresh earth being thrown in upon him, so that he is completely covered. In this situation, he must remain for one phar and a quarter, or three hours and three quarters, and if at the expiration of that time, on the removal of the earth, he should be found alive, he will ascend into the highest rank among the most pure of the Yogees.

Not long since, a couple were going to be married, and had proceeded as far as the clergyman's door: the gentleman stopped his fair comrade with the following unexpected address—

"What, during our courtship, I have told you most of my mind, but I have not told you all of my mind; when we are married I shall insist upon three things—what are they? eagerly asked the astonished lady. In the first place, said he, I shall lie alone—

alone I shall eat alone—and lastly I shall stand and faint where there is no occasion for you submit to these conditions? O yes, sir, very easily, she replied, for if you lie alone, I shall not eat you eat alone, I shall eat first—and as to your finding fault without occasion, I think that may be prevented. For I will take care that you shall never want occasion.—

They were married and the writer wishes them much happiness and pleasure.

Bog's Remedy for the Dysentery.

Take new churned fresh butter, melt it over a hot fire, and skim off the curdy part, give two spoonfuls of the clarified remainder, two or three times a day: it seldom fails of effecting a speedy cure.

FROM OUR CORRESPONDENT AT N. YORK.

Gazette office, Friday noon.

IMPORTANT.—We have seen a letter from a gentleman at Gibraltar, dated June 21, stating, that he had conversed with an officer belonging to the U. States ship Peacock, just arrived at that place from Algiers and Tunis. From the latter place they had brought our Consul, Mr. Anderson, who was induced to leave there, owing to his having been treated in a manner that would not justify his remaining longer as the representative of the United States. The Bey, to some time previous to his departure, would not permit him to come into his presence, in consequence of his refusing to kiss his highness' hand. He has also detained there an American citizen for demanding payment for property sold his highness to the amount of several thousand dollars. The Peacock left them getting their fortifications in order, and it is the general opinion that there will be a brush with them soon after her joining the squadron at Marseilles. She will sail as soon as she can get in a supply of provisions and water.

Captain Jacobson was yesterday convicted in the circuit court of the United States of an intended fraud on the underwriters, by sinking his ship, the Aristides, on the coast of North Carolina, and found guilty—(death.) The Aristides was bound from New-Orleans to this port, and both vessel and cargo were heavily insured in this city; but the cargo turned to be staves, &c. instead of merchandise.

Piscataway Property for Sale.

PURSUANT to a decree of Prince George's county court, sitting as a court of chancery, the subscriber, as trustee, appointed by the honorable judges thereof, will sell at public sale, in the town of Piscataway on Friday, 5d October next, the following very valuable property, to wit:

A very handsomely improved and desirable lot at the lower end of the town, formerly the residence of the late Jacob Duckett, Esq. on which, besides a neat dwelling, is every other convenient house for a family.

Attached to this lot is an extremely commodious store house, of 50 by 27 feet, having a dry cellar of same dimensions, and granaries calculated to hold 6 or 7,000 bushels, with stabling for 4 horses.

Adjoining this is a 7 or 8 acre lot, well enclosed, of rich soil with a large barn and prize shed on it.

Also, 150 acres of land, distant about 2 miles therefrom, very heavily wooded. To those engaged in the carrying of wood to the District, this latter would be worth attention. Fauquier Land for Sale.

THE subscriber offers for sale his farm, called "CULLINS," situated in the county of Fauquier, on Kettle Run, and adjoining the lands of Messrs. Samuel Weaver, Jacob Weaver, and others, 7 miles from Fauquier Court House, 33 from Alexandria, and 3 from the Buckland Mills, containing about 400 acres; a considerable portion of which is now in very heavy timber, the balance cleared and in cultivation, including about 80 acres of the first quality bottom land, which, with a small portion of labor, might be made to produce a large quantity of hay. This land lies well, and is in a good neighborhood, and finely watered, Kettle Run passing thro' the farm. To a person disposed to purchase land for the purpose of cultivating and improving it himself, the above offers great advantages, as the plaster Paris & clover acts on no land more efficaciously than on this.

Also, one other farm, lying immediately adjoining, containing the like number of 400 acres; about one half of which has been cleared, the balance well set in timber.

The above farms will be sold together or separately, as may suit purchasers. For terms, which will be liberal, apply to the subscriber, residing near the premises.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended

Hahn's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, particularly in New-York Philadelphia Baltimore Petersburg Richmond Norfolk Edenton Wilmington Charleston and Savannah. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe that a timely use of this salutary remedy has under Providence preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Lee's Infallible Ague and Fever Drops For the cure of agues, remittent and intermittent fevers.

Hamilton's Worm-destroying Lozenges.

Which have cured an immense number of persons of both sexes of every age and in every situation of various dangerous complaints arising from worms and from obstructions or foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mild est purgative that can be used on any occasion

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Ascarides or large round worm; the Cucurbitina or small maw-worm; the Cucurbitina or short flat white worm; and lastly, the Tenuia or tape-worm, so called from its resemblance to tape. It is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums itching in the nose, and about the ears; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and faecid stools; vomiting; large and watery belly; pains and sickness at the stomach; slow fever with small and regular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children—a dreadful disorder which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health a strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for rheumatism, gout, palsy, sprains and bruises, white swellings, old strains and relaxations, numbness and weakness of the neck, pain of the side, head-ache, swollen face, frozen limbs, and every similar complaint. It prevents chilblains or chapped hands, and the ill effects of getting wet or damp in the feet.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth, and improving the complexion.

The Danask Lip Salve—Restorative Powder for the teeth and gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immediate use of tea, frequent intoxication, or any other destructive intemperance, the unskillful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lying in, &c.

Hamilton's Elixir for Coughs, Colds, &c.

Celebrated for the cure of colds, obstinate coughs, asthmas and approaching consumptions and a certain remedy for the hooping cough.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaster.

The above celebrated MEDICINES are prepared at LEE'S Patent Medicine Warehouse New-York—and sold wholesale & retail at the Book-store of JAMES KENNEDY & SON, King street, who are sole agents for Alexandria.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
